

# Guidelines for Project Submission

## Some Major Points to be taken into account

1. Please make sure to open **eProMIS** on **Internet Explorer**, as some of the functionality which may not work on other browsers.
2. **New User Registration**-During registration with **eProMIS** please make sure that User Name should not contain spaces, like **rakesh sharma** instead enter **rakeshsharma**.
3. Only the **Project Coordinator** (In **Multi-Institute/Network Project**) or **Principle Investigator** (In **Single-Institute Project**) must register with **eProMIS**. She/he will be treated as **Registered User**.
4. **Multi-Institute/Network Projects** are treated as One Project
5. There will be only one Registered User per Project.
6. In **Multi-Institute/Network Projects**, If Funds are to be released to the other Institutes (Institute other than from which the Registered User belongs) then there should be at least one **Principle Investigator (PI)** associated with that Institute. In Other wards User has to add the details of Investigator as **Principle Investigator (PI)** in the **Project Investigator Tab** so that their Institute Name could be shown in **Technical Details** and **Budget Details** tab to add the respective details.
7. Any Investigator can be treated as **Co-PI's** for which there is no separate Technical and Budget details are required.
8. Do not use special characters like (!@#%\$%^&\*()-\_{ }[]/<>?|'\":;,.) in Project Submission Screen.
9. Please **SAVE** the details in any of the tab before 20 minutes to avoid data lose. You may the steps given below.
  - i. Use Copy and Paste method. Keeping the maximum characters limit and special characters in mind.
  - ii. Suppose user need to enter 10 Objectives and each objective may have 2-3 Work Plan associated with it and every work plan may have 1-2 Activity (time lines) related to it. Instead of copy and pasting all the 10 objectives once and then all the work plan and then all the Activities. Add only one objective and then Add one Work Plan associated with the above added Objective and then add the Activities related to the above added Work plan.
  - iii. By doing this user will be able to add all the mandatory information available in the screen and this how the user will be able to to save the partial information. Later when you come back to the same Tab again you can go ahead with the Second Objective and follow the same procedure.
  - iv. Same thing can also be done under Budget Details tab also.

- v. Suppose user needs to add 10 equipment,15 Consumable,10 travel related information,15 Contingency Details and 5 Over Head Details, follow the steps described above, Copy and Paste one equipment details then one Consumable, one travel related information, one Contingency Details and one Overhead Details then click on save. Later you can come back to this tab again and add the other remaining details this is how you will be able to save the partial details in the screen having more fields and avoid data loss.

## 10.Choosing the Project Category
